**V2_ presents the 8th edition of
Dutch Electronic Art Festival**

DEAF07: INTERACT OR DIE!

Interaction is a characteristic of every living thing. Bodies and objects lay connections, form networks, and then, through interaction, achieve organization, structure and memory. What this can yield for art will be presented in the large interactive exhibition, (music-) performances, symposium, workshops and seminars during DEAF07.

Special focus on China and V2_'s 25th anniversary.

DEAF07 in Rotterdam: Las Palmas Kop van Zuid,
